

SDG-FORUM BELGIUM

#TimeFor8!

“time for PR or real time for SDG 8?”

29/10/2020, 13u00-14u50 via HOPIN

Today the 2030 Agenda and its Sustainable Development Goals (SDGs) are relevant more than ever. They provide the vision and show the path towards resilient economies and inclusive and just societies.

SDG 8, “inclusive growth and decent work” drive forth the Agenda 2030 and is key to address the social and economic impacts of crises, in particular the current Covid-19 crisis. Social protection and social dialogue plays a fundamental role in this. Not only here in Belgium but also in the Global South.

Which contribution is delivered by the private sector for social sustainability?

Register via the SDG Forum website: <https://hopin.to/events/sdg-forum>,
